## Ride for a Purpose

The Rivers Foundation was established in 2006 with a heart to help people. It was registered with the specific aim of addressing the unique challenges faced by the children, youth, unemployed and unskilled individuals in South African communities. All donations received are used to help our many beneficiaries – nothing goes towards operational costs.

The Rivers Foundation exists to be a helping hand to disadvantaged families and strives to strengthen communities through feeding schemes, coaching and mentoring, skills training and enterprise development. More information on the Rivers Foundation is available at <https://www.riversfoundation.org.za/>
